PROFESSIONAL SUMMARY

Motivated Software Engineering student with strong academic performance. Skilled in communicating and collaborating with others. Has solid foundation in programming and problem-solving.

EDUCATION

University of New Brunswick

Expected Year of Graduation: 2027

- Bachelor of Science in Software Engineering
- GPA: 3.9

Fredericton High School

Graduated in 2022

PROJECTS

UTrack – Team Productivity Analysis System

React, Node.js, Express, MongoDB, Docker

- Developed a web application with a dashboard for visualizing student team productivity metrics to support professors in analyzing team performance.
- Created Figma designs and translated them into equivalent React components.
- Built React components and supported teammates in learning and implementing React.
- Contributed to backend development using Node.js and Express.
- Collaborated in an Agile (Scrum) team, participating in sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Used Git and GitHub to manage code changes and collaborate effectively with team members. **GitHub:** <https://github.com/h0nt3d/UTrack.git>

HealthSync – IoT Healthcare Monitoring System

Java (Spring Boot), React, PostgreSQL, Docker

- Developed a modular monolithic healthcare system for collecting and visualizing real-time patient data from IoT medical devices.
- Contributed to system design using modular monolithic architecture and design patterns such as Factory Method and Strategy.

- Worked on backend development using Spring Boot, contributing to feature implementation and backend system logic.
- Led technical documentation efforts, maintaining architecture artifacts (ARC42), Architecture Decision Records (ADRs), and system diagrams to support project organization and knowledge sharing.
- Collaborated in a team, supporting development, and testing across system modules.

EMPLOYMENT HISTORY

Environmental Services – Compass Group

Fredericton, NB | May 2023 – Present

- Demonstrated strong time management skills by efficiently completing tasks within designated timeframes.
- Communicated respectfully and professionally with residents in a home environment, ensuring a positive and supportive atmosphere.
- Performed multiple cleaning tasks, including wiping surfaces, changing garbage, sweeping, and mopping, while adhering to strict IPAC (Infection Prevention and Control) protocols.

Customer Associate - Walmart

Fredericton, NB | June 2021 – September 2021

- Demonstrated strong customer service skills by providing friendly and efficient assistance to customers.
- Operated cash registers, including scanning and bagging items, and accurately handling financial transactions.
- Collaborated with team members to ensure smooth store operations and consistently meet customer expectations.

PROFESSIONAL SKILLS

- **Programming Languages:** Python, Java, C, JavaScript, SQL
- **Frameworks & Libraries:** React, Node.js, Spring Boot
- **Web Technologies:** HTML, CSS
- **Tools & Technologies:** Git, GitHub, Docker, PostgreSQL, MongoDB, Databricks, Figma, Microsoft Office Suite, ChatGPT, Wireshark
- **Knowledge:** Objected-oriented programming concepts, cybersecurity fundamentals, networking concepts, software architecture patterns, UI/UX principles, Agile and Scrum methodologies, big data systems, data analytics, and machine learning concepts including model training and evaluation.

- **Experience:** Developed full-stack web applications using React, Node.js, and Spring Boot. Worked in Agile teams with Git-based workflows while contributing to both frontend and backend systems.
- **Languages:** Fluent in English and French.
